Job Description & Summary

At PwC, we recognise and respect the amazing array of transferable skills of Graduates, which with the right coaching, training and exposure can get into a great skill-set that we definitely need for the Future of Assurance. This is what PwC offers to you! Our graduate development opportunities combine Coaching, “on the job training” and a lot of technical & soft skills training to give our graduates the best possible first step on the career ladder.

How would it be to work in client facing engagements while understanding and testing complex Information Systems and designing complex models to support data accuracy and completeness?

What’s it like to work in our Systems & Data Assurance team?

- Assess the secure and reliable operation of complex IT Systems (i.e. SAP, Oracle) and evaluate to what extent these systems support effectively the relevant business processes within the organization.
- Address any IT and cyber risks that could impact the reliability of the data produced from the Company’s systems and integrity of the Company’s Financial Statements.
- Assist financial audit teams in data analysis via the use of Computer Assisted Audit Techniques and Automated Processing Analytics tools.
- Evaluate data migration activities performed by our clients’ due to large system upgrades or implementation of new systems.
- Assess Internal Control Systems against recognized industry standards and suggest actions to improve control effectiveness and process optimization.
- Support the development, maintenance, and use of new and emerging technologies (i.e. RPAs and other Automated Processing Analytics tools).
- Evaluate cloud security and waterfall/agile frameworks implemented by our clients.
- Develop subject matter expertise in industry specific operations (i.e. Banking, Telecoms, Shipping, Consumer Products) & technology platforms.

What are we looking for?

- Excellent academic records from a Greek or foreign university preferably in Business administration, Informatics, Computer Science, Management, Data Science/Analytics, Engineering or other related discipline.

- 0-2 years of working experience.
- Excellent organisational skills with a keen eye for detail.
- A confident and positive attitude, focused on teamwork and communication with colleagues and clients at all level.
- Commitment to providing excellent quality work and building client relationships.
- Advanced level of critical thinking & judgement.
- Tech Savvy and digital skills to be part of the Assurance transformation to digitisation.
- Fluency in both Greek and English.
- Military obligations fulfilled for male candidates.

What's in it for you?

PwC is all about people, encouraging high performance and quality. At PwC, you will have:

- Access to a global network of firms and global mobility opportunities.
- Life and medical plan, rewards and recognition schemes, flexible working program, bus service, work-life benefits, etc.

Who are we?

PwC in Greece is the largest professional services firm in the country, with premises in Athens and Thessaloniki and approximately 1200 employees. More than 250,000 people in 158 countries across our network share their thinking, experience and solutions to develop fresh perspectives and practical advice. This enables us to provide top-quality industry-focused assurance, tax and advisory services to our clients.
