

# Internships in P&G

## Customer Business Development

### Internship in Greece – (m/f)-CBD00013759

#### Description

We offer exciting, challenging internships to outstanding people. You will be provided with a deep, experienced based understanding of Customer Business Development and Customer Teams. Interns become an important member of one of our Customer Teams, working directly with the customer, and having selling and account management responsibility. We are seeking students or graduates who are leaders, who make things happen, analytical thinkers and problem solvers, and excellent communicators. We are looking for individuals who set priorities and follow through on commitments, who work effectively with diverse groups of people, and who demonstrate creativity, innovation and initiative.

#### You will be required to

Interns are assigned to specific Customer Teams for the duration of their internship. Their responsibilities include achieving competitively superior in-store presence of our brands at assigned grocery or retail drug accounts. Additionally, interns are assigned special projects to complete, and are expected to make meaningful contributions to the growth of our brands by completing business analyses and participating in account presentations. Interns are expected to learn and use conceptual selling techniques and data-based presentations.

#### We are looking for

- Bachelors/Masters students or graduates with good academic results from any academic discipline.
- Practical experience through internships/work placements will be appreciated.
- Active in extracurricular activities
- A valid driver's license is mandatory
- Very good knowledge of written and spoken English.
- Fulfilled military obligations for male candidate
